Our goal is to focus on a total health approach considering mental and physical wellness.

Dr. Julia Weeks

Dr. Julia Weeks has over three decades of medical experience, specializing in wound care. Dr. Weeks was born in Birmingham, AL, but spent much of her early years in the Congo, where her parents were missionaries. After completing her medical degree from the University of Alabama School of Medicine at Birmingham, she spent a remarkable 10 years serving as a missionary physician and medical director in the Congo. After years of medical practice in a wide range of organizations, she is now a part of the MCMH team to provide excellent care to the community!

Why Choose MCMH?

Madison County Memorial Hospital's Primary Care Clinic offers a range of services as prescribed by medical providers. MCMH's mission is to enhance the quality of life by continually improving the health of the community. With great passion, the Madison Primary Care (MPC) is focused on achieving comprehensive care, enhancement of disease management, and overall wellness and health.

A Look into Wellness!

Wellness is a holistic approach to good health and wellbeing far beyond just being free of disease. Building a resilient life through the seven wellness dimensions are essential to empower you to live well, maintain healthy habits, and attain enhanced mental and physical health outcomes.
